

**Competition** | Win a Waste King waste disposer

# Why Waste King?

Help stop this...

...by recycling waste food into electricity

**WIN**

## HOW TO ENTER

Just answer one simple question for your chance to win a Waste King:

**Q:** How many units do Waste King make a year?

*Hint: The answer can be found on this page!*

Email your name, address and answer to:  
mdowns@unitymedia.com

**Competition closes  
15th July 2015**

**More info:**  
The Hunter Fan Company Ltd  
Tel: 01256 636 509  
[www.waste-disposal-unit.com](http://www.waste-disposal-unit.com)

**R**ecycle your waste  
19m tonnes of food waste a year is dumped into landfills in the UK which rots down to produce harmful carbon dioxide and methane gases. With a Waste King, however, it ends up at the sewage treatment works where it is converted into biogas and then electricity, thus reducing carbon emissions. It is a double-win for the environment.

*The wise choice,  
better than composting!*

A Waste King can be easily fitted under your sink by any plumber and immediately stops unwanted mess and leaking bags. This avoids unwanted bad smells, vermin, insects and the associated health risks. It also saves the valuable space lost to storage of the bags or smelly compost – essential for city life where space is at a premium!

**LIFETIME WARRANTY:** Waste King is the only waste disposer brand on the market to offer this. They stand firmly behind their quality by guaranteeing it.

**RATED NO. 1:** The independent US Consumer Reports Magazine voted Waste King as the best waste disposer on the market ahead of Insinkerator and all other brands.

**GLOBAL BRAND:** Waste King is the World's second biggest disposer brand making over 3m units a year.

**NO JAMS:** The more powerful design means they run faster which results in far more cutting power to the teeth. This prevents jams and flushes away the debris very efficiently, thus quickly saving time, water and electricity.

**MORE TORQUE:** Waste King motors have more twisting power than any other brand due to the use of permanent magnet motors which reach full speed in the first turn. This also means no jams, no auto-reverse and no hassle.

**SOUND INSULATION:** The Waste King is designed to minimise noise with high performance insulation.

**UNIQUE, ROBUST LONG-LASTING DESIGN:** The Waste King uses cast stainless-steel cutters, fast and easy mounting systems, tougher grinding chambers with a lifetime corrosion guarantee for long performance, and a large opening for grinding with removable splash guards for easy inspection.

Waste King is exclusively distributed in the UK and EC by The Hunter Fan Company Ltd.

**Terms & conditions:** Entry is open to residents of the UK except employees (and their families) of Unity Media Plc, its printers and agents, prize suppliers or any other companies associated with the prize draw. The winner must be aged 18 or over. All entries must be made directly by the person entering the prize draw. No responsibility can be accepted for entries lost, damaged or delayed in the post. The prize is as stated, is not transferable and no cash or other alternative will be offered. Prize is subject to availability and the suppliers' terms and conditions. The promoters reserve the right to amend or alter the terms and prize draws and reject entries from entrants not entering into the spirit of the prize draw. The winner will be confirmed in writing. Failure to respond and/or provide an address for delivery, or failure to meet the eligibility requirement may result in forfeiture of the prize.
